Summary

Software Engineer specializing in scalable, event-driven backend architecture and real-time full-stack product delivery. Builds distributed microservices and production-grade web applications with clean architecture, strong API design, and a security-first mindset.

Work Experience

Full Stack Engineer

May 2026 – Present

I-Fikra

- **Alexandria Port:** Built the public-facing landing page and the backend chat service enabling real-time communication on the platform, supporting concurrent users.
- **Lady Driver:** Delivered a women-only ride-hailing platform, building trip management and passenger-driver communication – chat and notifications – to keep both sides coordinated in real time, and took ownership of deploying and running the project in production.
- **Medical Platform:** Built the doctor-facing dashboard on the frontend, and backend services covering appointment booking, news content, and patient-provider communication – chat, notifications, and video calling.

Education

Java Spring Boot - Route

Jul 2026 – Present

Open Source Applications Developer (NTI)

Jan 2026 – Apr 2026

Faculty of Engineering, Alexandria University

Sep 2020 – Jun 2025

B.Sc. in Communication and Electronics Engineering

Skills

Technical Skills

- **Frontend:** React, Next.js, Angular, Tailwind, Vue, TypeScript, Bootstrap, Context, Redux, Zustand, TanStack
- **Backend:** Node.js, Express.js, NestJs, Java Spring Boot, REST APIs, GraphQL, WebSocket, Microservices, RabbitMQ, gRPC, JWT, OAuth2
- **Database:** MongoDB, MySQL, Sql Server, PostgreSQL, Redis
- **Tools and Testing:** Git, GitHub, Postman, Figma, VS Code, Docker, CI/CD, Jest, Cypress, IntelliJ
- **Others:** Data Structures and Algorithms, OOP, SOLID, Python, C/C++

Soft Skills Problem Solving, Team Leading, Teamwork, Time Management, Continuous Learning, Self-Motivation

Languages: Arabic, English

Projects

MedFlow Clinic Platform (Full Stack) [Frontend](#) | [Backend](#)

Sep 2026

- Built a full-stack clinic platform appointment booking, role-based dashboards, and real-time patient-doctor chat reducing average appointment-booking wait time from 3+ hours to under 10 minutes.

E-Commerce Platform – Full Stack [Ecommerce](#)

Jun 2026

- Architected a multi-tenant e-commerce platform as three independently deployable services, owning security, payments, and EN/FR/AR localization end to end – validated by 100+ automated tests.

Library Management System – Full Stack [Alex-Library](#)

May 2026

- Shipped a production-deployed library platform as three independent apps – API, admin dashboard, and storefront – with role-based authentication, real-time borrow/return tracking, and a data-table-driven admin UI.
