Summary

Full Stack Engineer with enterprise internship experience across frontend, backend, and microservices architecture. Skilled in building scalable APIs (REST, GraphQL), real-time systems (WebSockets), and event-driven services (gRPC, RabbitMQ) with clean, maintainable code. Continuously growing through hands-on projects and structured upskilling in React, Next.js, Angular, and NestJS.

Work Experience

Full Stack Developer Intern

Jul 2026 – Present

Areeb Technology

- Undergoing advanced, in-depth training in **React** and **Node.js**, deepening expertise in advanced component patterns, state management, and performance optimization on the frontend, alongside advanced backend architecture and API design practices.

Full Stack Developer Intern

May 2026 – Present

I-Fikra

- Built production features end to end across **Angular** and **Node.js/NestJS**, spanning RESTful APIs, **SQL Server/PostgreSQL/MongoDB/Redis** data layers, and real-time **WebSocket** communication.
- Contributed to a microservices architecture using **gRPC** and **RabbitMQ** for reliable, decoupled inter-service messaging.

Education

Java Spring Boot

Jul 2026 – Present

Route Academy

- Building a solid foundation in **Java** and **OOP** principles, in progress.

Open Source Applications Developer (4-month Hire Ready intensive program)

Jan 2026 – Apr 2026

National Telecommunication Institute (NTI) – Digital Egypt Youth (DEY) HireReady Initiative

- Trained across **React**, **Vue**, **Next.js**, and **Node.js**, shipping multiple full-stack projects with **TypeScript**, **Redux**, **MongoDB/MySQL/Redis**, REST APIs, **WebSockets**, and automated testing, containerized with **Docker** and deployed via **CI/CD** pipelines.

Faculty of Engineering, Alexandria University

Sep 2020 – Jun 2025

B.Sc. in Communication and Electronics Engineering

(Graduated)

- **Graduation Project:** Advanced Driver Assistance System (ADAS) Grade: A+
- **CGPA:** 3.02

Projects

E-Commerce Platform – Full Stack [Ecommerce](#)

Jun 2026

- Architected a multi-tenant e-commerce platform as three independently deployable services sharing a unified data layer: **Express 5/TypeScript** API, **React-Admin** dashboard, and **Next.js 16** storefront.
- Owned the platform's security and payments surface end to end – **JWT/OAuth** auth, **Stripe/PayPal**

checkout, and injection-attack detection with automated IP blocking – validated by 100+ Jest and Cypress tests.

- Shipped full EN/FR/AR localization with RTL support across all three apps.

Portfolio – Personal Website [Live](#) | [youssef-portfolio](#)

May 2026

- Modern, responsive portfolio showcasing 15+ full-stack projects with category filtering, built with React 19 and Vite for optimal performance. Features dark/light mode, multi-page navigation, contact form with EmailJS, i18n support via react-i18next, and smooth CSS3 animations.

Library Management System – Full Stack [Alex-Library](#) | [Library](#) | [admin-library-react](#)

May 2026

- Shipped a production-deployed library platform as three independent apps – **Node.js/Express/MongoDB** API, **React** admin dashboard, and **Next.js** storefront – unified by JWT role-based auth.
- Built real-time borrow/return tracking and a data-table-driven admin UI (React Hook Form, Zod), deployed independently on Vercel.

Skills

Technical Skills

- **Frontend:** React, Next.js, Angular, Tailwind, Vue, TypeScript, Bootstrap
- **Backend:** Node.js, Express.js, NestJs, Java Spring Boot, REST APIs, GraphQL, MongoDB, SQL, Redis, WebSocket, Microservices, RabbitMQ, gRPC
- **Tools:** Git, GitHub, Postman, Figma, VS Code
- **Others:** Data Structures and Algorithms, OOP, SOLID, Python, C/C++, CI/CD, Docker, Jest, cypress

Soft Skills Problem Solving, Team Leading, Teamwork, Time Management, Continuous Learning, Self-Motivation

Languages

Arabic (Native), English (Professional)
