Summary

Full Stack Developer with hands-on experience across the complete web development stack. Proficient in frontend technologies including HTML, CSS, JavaScript, TypeScript, SCSS, Tailwind CSS, Bootstrap, React, Vue, Next.js, and Angular, complemented by solid backend expertise in Node.js, Express, and GraphQL API design. Experienced with testing and DevOps practices including Jest, Cypress, CI/CD pipelines, and Docker. Committed to writing clean, maintainable code and delivering scalable, high-performance web applications.

Work Experience

Full Stack Developer Intern

May 2026 – Present

I-Fikra

- Developing and maintaining full-stack web applications using **Angular** on the frontend and **Node.js** with **Express.js** and **TypeScript** on the backend, delivering scalable, production-ready features within an agile team environment.
- Designing and consuming **RESTful APIs** with relational and non-relational databases including **SQL Server**, **PostgreSQL** and **MongoDB** applying best practices in schema design, query optimization, and data integrity.
- Implementing **real-time bidirectional communication** using **WebSockets**, enabling live data updates and event-driven interactions across connected clients.
- Gaining hands-on experience with **microservices architecture**, implementing asynchronous event-driven communication via **RabbitMQ** and **KafkaJS** to enable reliable, decoupled inter-service messaging.

Education

Open Source Applications Developer (4-month Hire Ready intensive program)

Jan 2026 – Apr 2026

National Telecommunication Institute (NTI) – Digital Egypt Youth (DEY) HireReady Initiative

- **Completed 420 hours** of intensive training in full-stack development and open source technologies
- **Developed 10+ projects** including e-commerce dashboards, banking systems, and library management platforms

Faculty of Engineering, Alexandria University

Sep 2020 – Jun 2025

B.Sc. in Communication and Electronics Engineering

(Graduated)

- **Graduation Project:** Advanced Driver Assistance System (ADAS) Grade: A+
- **CGPA:** 3.02

Projects

Portfolio – Personal Website [Live](#) | [youssef-portfolio](#)

May 2026

- Modern, responsive portfolio showcasing 15+ full-stack projects with category filtering, built with React 19 and Vite for optimal performance. Features dark/light mode, multi-page navigation, contact form with EmailJS, i18n support via react-i18next, and smooth CSS3 animations.

Library Management System – Full Stack [Alex-Library](#) | [Library](#) | [admin-library-react](#)

May 2026

- Engineered a complete, production-deployed library ecosystem across three integrated applications: a RESTful API backend (Node.js, Express, MongoDB), a React/Vite admin dashboard, and a Next.js 16 user-facing website with TypeScript.
- Implemented JWT-based authentication with role-based access control (Admin/Member), full book CRUD with ban/unban functionality, and a borrow/return transaction system with real-time availability tracking.
- Built the admin dashboard with React Hook Form, Zod schema validation, dark/light theme, and interactive data tables with search, filter, and pagination; deployed all three apps independently on Vercel.
- Designed the frontend with Next.js App Router, shadcn/ui components, Embla Carousel, and Tailwind CSS v4, delivering responsive UI with protected routes, profile management, and toast notifications.

E-Commerce Backend [E-Commerce-Backend](#)

Apr 2026

- Built a scalable REST API with Node.js, Express, and MongoDB, featuring authentication, payment integration, product management, and order processing.

Admin Dashboard – E-commerce Management [Admin-Dashboard](#)

Mar 2026

- Built a comprehensive e-commerce admin dashboard with React 19, Vite, and Tailwind CSS, featuring secure authentication, full CRUD operations for products/categories/brands, and responsive UI with dark/light mode support.

Saraha – Messaging System [Saraha](#)

Mar 2026

- Developed a messaging system with real-time communication features, built with modern web technologies and focused on user experience and performance.

ATM System – Backend [ATM-System](#)

Mar 2026

- Developed a comprehensive ATM system backend with Node.js, Express, and MongoDB, featuring complete banking operations including account management, secure PIN authentication, and real-time transaction processing with full audit trails.

Todo App (React) [Todo-App-React](#)

Feb 2026

- Developed a premium task management suite using React 19 and Tailwind CSS v4, featuring JWT authentication, Zod validation, and full REST API integration.

NoteFlow – Movies CRUD System [Movie-Cruds](#)

Feb 2026

- Developed a comprehensive movies management system featuring full CRUD functionality, real-time search, and LocalStorage persistence, built with dynamic Vanilla JS and a responsive Bootstrap 5 UI.

Clinic – Healthcare Website [Clinic](#)

Feb 2026

- Designed and developed a premium, responsive healthcare clinic website featuring glassmorphism navigation and interactive medical profiles, implemented with Bootstrap 5 and advanced CSS3 animations.

Skills

Technical Skills

- **Frontend:** HTML, CSS, JavaScript (ES6+), React, Next, Angular, Tailwind, Vue, TypeScript, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, MongoDB, SQL, Redis, WebSocket, Microservices, RabbitMQ, KafkaJS
- **Tools:** Git, GitHub, Postman, Figma, VS Code
- **Others:** Data Structures and Algorithms, OOP, SOLID, Python, C/C++, CI/CD, Docker, Jest, cypress

Soft Skills Problem Solving, Team Leading, Teamwork, Time Management, Continuous Learning, Self-Motivation

Languages

Arabic (Native), English, French
